Ms. Nadia Hollan Burke
Remedial Project Manager
EPA Region 9
75 Hawthorne Street
San Francisco, CA 94105

Subject: Submittal of the Site-Wide Health and Safety Plan – Revision 1, Yerington Mine Site, Lyon County, Nevada: Administrative Order for Remedial Investigation and Feasibility Study, EPA Docket No. 9-2007-0005

Dear Ms. Hollan Burke:

Per the subject Administrative Order, Atlantic Richfield Company (ARC) has prepared the attached *Site-Wide Health and Safety Plan - Revision 1* (HASP Rev 1) dated December 21, 2009 for the Yerington Mine Site (Site). The revised HASP replaces the Draft HASP submitted to the U.S. Environmental Protection Agency - Region 9 (EPA) in March 2007, and has been updated to include the following:

- General Site operations and maintenance (O&M) and security activities, and planned remedial investigation and removal action activities;
- ARC and EPA project contacts;
- Asbestos handling procedures;
- Radiological monitoring, materials characterization and handling requirements; and
- Coordination with 2009 ARC Health, Safety, Security and Environment (HSSE) requirements.

In addition to preparing hard copies for EPA and the copied recipients indicated below, the HASP Rev 1 has been uploaded to the Tetra Tech/EPA Anaconda Document Library (SharePoint Partners Website <https://partners.ttemi.com/sites/epanevada/default.aspx>) in the folder entitled Health and Safety Plan Rev 1 Dec 2009.

Please contact me at 714-228-6774 or via e-mail at jack.oman@bp.com if you have any questions regarding the revised HASP.

Sincerely,

Jack Oman
Project Manager
